There is nothing more powerful or more sacred than the **Stories We Carry**. In this narrative/visual art workshop for military veterans, we will use in-class writing prompts to bring **your stories** to the forefront.

Experimentation in prose and poetry is equally encouraged. Students will express personal experiences through writing and art, exploring hybrid writing and ink art inspired by **sumi-e painting** and **calligraphy**. Combine writing and imagery into an autobiographical keepsake in this one day workshop, and connect with the power of writing for creativity and well-being. No previous writing or art experience is required.

Instructors: Dina Greenberg and Susan Polizzotto
